

Specifications:

Working environment Oil / Gas / Water	Maximum pressure 103 MPa / 15 000 psi	Maximum temperature 302°F (150°C)
---	---	---

Acoustic Channel:

Output, Sand Counts / second	Sensitivity, Particle OD in mm 0.1	Vertical resolution, m (ft) 0.3 (1)	Range, impacts per second 0 - 16 000	Particle channels 2
Operation Mode Stationary				

Memory:

Memory capacity 4369 Hours	Battery capacity 75 Hours
--------------------------------------	-------------------------------------

Weight / Dimensions:

Weight 2.5 kg	Outside diameter 1 11/16" (42 mm)	Length 310 mm	Connecting thread 15/16"-10UN	Housing material Titanium
